Trade-marks Journal

2017-03-08 — Vol. 64 No. 3254

Canada

Trade-marks Journal

Vol. 64 No. 3254

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Computer software for use in monitoring, managing and delivering completion services and commissioning services and procedures namely services and procedures for assuring that all systems, equipment and components used in projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries are designed, installed, tested, operated, and maintained according to operational requirements; computer software for saving and searching information on procedures used in commissioning (namely, assuring that all systems, equipment and components used in projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries are designed, installed, tested, operated, and maintained according to operational requirements) start-up, operating and preservation processes in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for recording, storing and searching data relating to productivity, resource allocation and the progress of construction and commissioning projects (namely, projects to assure that all systems, equipment and components are designed, installed, tested, operated, and maintained according to operational requirements) in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software, including software downloadable from the internet, for managing the authoring and execution of commissioning procedures in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries namely, assuring that all systems, equipment and components used in projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries are designed, installed, tested, operated, and maintained according to operational requirements; computer software for providing an on-line database to store information and data on procedures used in major capital project commissioning, to upload procedural information and project data and produce notifications and reports; computer software for tracking and monitoring progress of projects and the level of progress of completion of equipment in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for preparing and executing construction, completion projects and commissioning activities and projects (namely, assuring that all systems, equipment and components are designed, installed, tested, operated, and maintained according to operational requirements) in the oil and gas, mining, pharmaceutical and nuclear industries; computer software for recording, storing and searching data relating to productivity, resource allocation and the progress of projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for the planning of construction, completion projects and commissioning projects (namely, assuring that all systems, equipment and components are designed, installed, tested, operated, and maintained according to operational requirements) in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for providing an on-line database to store procedural information and data relating to oil and gas, energy, mining, chemical, pharmaceutical and nuclear projects, to upload procedural and project data and produce notifications and reports; computer software, namely, computer programs and interfaces for engineering, constructing, operating, commissioning and managing industrial construction projects, nuclear power projects, mining projects, and oil and gas exploration and production projects; computer software for determining productivity in the oil and gas industry; computer software for auditing projects in the oil and gas industry; computer software for field management in the hydrocarbon exploration and production industry; computer software for analyzing, monitoring and planning workflow; computer software for monitoring and analyzing technical and operational data in the oil and gas production and exploration industry; computer software for estimating cost or resource requirements for the construction, completion and commissioning (namely assuring that all systems, equipment and components are designed, installed, tested, operated and maintained according to operational requirements) of projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for database management; computer software for aided design; computer software featuring algorithms for use in providing cost quotations for industrial project commissioning services, namely , assuring that all systems, equipment and components used in projects for nuclear power projects, construction and mining projects and oil and gas extraction and production projects are designed, installed, tested, operated and maintained according to operational requirements; commissioning procedures software for use with an energy production facility; Electronic publications, namely, manuals, guides, pamphlets, newsletters and newspaper, magazine and journal articles that are downloadable from a public data network in the fields of engineering, commissioning and completion of industrial oil and gas energy projects, nuclear power projects, mining and construction projects; printed matter, namely, manuals; engineering manuals in the form of printed matter; commissioning manuals in the form of printed matter; engineering manuals in the form of printed matter; guides (printed matter) for engineering and commissioning purposes; Printed matter , namely, manuals and guides in the field of computer software for planning, engineering, constructing, operating and managing industrial nuclear projects, oil and gas extraction, mining projects and production projects and construction projects

Erratum

The following issues of the Trade-marks Journal contained errors which could not be corrected before publication.

2017-02-15

1,770,160

The mark was incorrectly advertised in the Trade-marks Journal dated February 15 2017, Vol 64 Issue 3251. The 16(2) claim based on use abroad should have indicated the United Kingdom as the Office of the foreign registration.
